

A. 2  
5/11/90

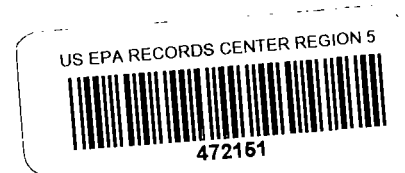

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION V

DATE: MAY 11 1990

SUBJECT: Albion-Sheridan Township Landfill

FROM: Jason El-Zein *Jason El-Zein*

TO: Site File

TCLP F-listed solvents scans were performed on two samples representing composite groups, C<sub>1</sub> and C<sub>2</sub>. F-listed solvents were discovered in both samples.

Since the site is an abandoned machine shop, it would be a likely place to find spent degreasing solvents; therefore, the two groups, C<sub>1</sub> and C<sub>2</sub>, meet the requirements listed in 40 CFR part 261.31 and will be classified as on EPA F-listed waste.
